Umalusi, the Council for Quality Assurance in General and Further Education and Training, introduced a new certificate format with effect from 1 March 2009 for the National Senior Certificate. The following certificates are issued exclusively by Umalusi:

- National Senior Certificate
- Subject Statement (National Senior Certificate)

Each certificate bears the following security features:

- When held to the light, the paper contains the Umalusi watermark;
- When looked at through a magnifying glass, the border displays the name of the Council continuously;
- It has a barcode, which matches the certificate number,
- It has a specific certificate sequence number ; and
- The national coat of arms appears on top of the document.
- A Silver embossed hologram in the lower left corner

The National Senior Certificate is registered at Level 4 on the National Qualifications Framework.

Achievement level for the National Curriculum Statement (NCS) Grades 10-12 (General)

Umalusi uses the seven-level scale of achievement to record a candidate's performance:

Achievement level	Description of competence	Marks (%)
7	Outstanding	80 – 100
6	Meritorious	70 – 79
5	Substantial	60 – 69
4	Adequate	50 – 59
3	Moderate	40 – 49
2	Elementary	30 – 39
1	Not achieved	0 – 29

* Certain subjects, identified on the certificate by an asterisk before them, are examined by other assessment bodies. These may have a level of achievement that is different from the NCS one, given above. No indication of level of achievement is therefore printed for these subjects.

+ Mathematics: Probability, Data Handling and Euclidean Geometry is an optional paper that is reflected on the certificate for candidates who wrote the NCS between November 2008 and March 2014. It is not included in the Mathematics mark nor does it have the status of an extra subject. It is separated from the other subjects by a stipple line. Mathematics achieved in the NCS from November 2014 includes these aspects.
